## Message from the Head

Dear Parents and Carers

This has been a really exciting week that has focused on getting our after-school clubs back up and running. We are still working on improving the number of clubs on offer and will be in touch with more information as and when it comes through from various outreach providers.

Year Two have had a fantastic experience this week by having a very special visit from the Truro Community Fire Station. You can see some of the photos on the next page of this memorable event.

This week we have also completed our Bikeability sessions for Years Five and Six. The children have shown such resilience and skill in completing their cycling proficiency

Year Three had great fun today whilst cooking a Mesolithic stew as part of their prehistoric studies. Some children couldn't get enough of the delicious food!

We are really excited about bringing the learning to life across the school and we hope that you are enjoying hearing about these memorable occasions at home.

I hope you all have a lovely weekend.

Miss Lock

## Parent Workshops / Events

EYFS Parents – Mrs Emblin will be running a phonics workshop for Foundation Stage parents on Monday 18 October at 17:30. We look forward to seeing you there.

Year Six parents and children are invited to a Q&A session with Penair School's Mr Sharpe and some of their prefects on Wednesday 13 October at 15:15.

## Year 2 visit from Truro Community Fire Station

This term the children in Year Two have been learning about the Great Fire of London. To help children understand how fires are put out nowadays, they had a very special visit from the Truro Community Fire Station Team who showed them a lot of the specialist equipment that is used to help put out fires. We are sure the children will remember this for many years to come!

## This Week's News

We've had a fantastic week at club; it's been lovely to see so many of our regular older children helping our new Foundation friends with activities and games and spending time getting to know them better as they settle in. Well done everyone we are really proud of you all.

Space week was a firm favourite and something we will revisit in the near future, check out our great projects in the photo gallery.

## Activities

We are all loving skipping at the moment and we've managed to get some great action shots of the children enjoying themselves we hope you're enjoying seeing these popping up on Class Dojo.

We also loved a spot of bird watching this week – a wagtail was spotted along with many other bird species!

## Next week

We will look at the Hindu festival of Navratri and the importance of handwashing.

## Reminders

Please can we remind you all of the importance of booking all required sessions on ParentPay or via [emmafoden@devoranschool.co.uk](mailto:emmafoden@devoranschool.co.uk) This means we can plan for the children's individual needs and collect the children promptly from the classroom.
